

#### Our Vision

Central Texas is a model healthy community.

#### **Our Mission**

By caring for those who need it most, Central Health improves the health of our community.

#### Our Values

Central Health will achieve excellence through:

Stewardship - We maintain public trust through fiscal discipline and open and transparent communication.

Innovation - We create solutions to improve healthcare access.

Right by All - By being open, anti-racist, equity-minded, and respectful in discourse, we honor those around us and do right by all people.

Collaboration - We partner with others to improve the health of our community.

# Central Health Board of Managers Shared Commitments Agreed adopted on June 30, 2021

Whereas, the Board of Managers of Central Health has come together as a governing body to ensure the Vision of Central Health: Central Texas is a model health Community;

Whereas, the Board of Managers of Central Health bring this vision into reality by enacting the mission of caring for those who need it most and thereby improving the health of our community;

Whereas, the Board of Managers of Central Health achieves excellence toward this vision and mission through the stated values of Stewardship, Innovation, Respect, and Collaboration;

Whereas, the Board of Managers of Central Health further known as we in this document understand that systemic racism is the root of health inequities that emerge from a history of racism in Texas including Travis County that contributes to the social determinants of health that play a primary role in producing inequitable health outcomes;

Whereas, as an organization, Central Health is anti-racist and committed to a diverse and inclusive culture that seeks equity and social justice in the pursuit of its mission:

- 1. We Commit to informing all of our actions as Board Managers with the understanding that we are accountable to recognizing and to interrupting systems of oppression. This includes understanding the power structure in the United States, and Texas, and Travis County, that advantages certain community members and has historically disadvantaged other community members based on the color of their skin, race, ethnicity, language, and/or other characteristics. We further understand that to disrupt this power structure and the health inequities it produces, we must collaborate to collectively respond to the lived realities of all ethnicities, races, and identities disadvantaged within this system and all historically oppressed identities and communities disadvantaged within this system. We Commit to understanding that when disadvantaged communities compete against each other, we all lose in this system, and the only way forward is to work together for the benefit of all oppressed communities collectively.
- 2. We Commit to a model of Generative Leadership which requires us to understand and practice collaboration and accountability demonstrated by following our agreed upon meeting procedures and ensuring all members have the opportunity for comparable speaking time. We further Commit to intentionality prior to speaking including: considering: what is the goal of what I

- want to share; is this the right time to share it; and is this in keeping with our collective goal for this particular moment within this particular meeting?
- 3. We Commit to Generative Conflict which includes engaging in disagreements and differences in perspective in a way that deepens relationships and trust by expanding knowledge and understanding of each other, including expecting our ideas to be expanded and enriched by learning and engaging with other Board Manager ideas, choosing curiosity over competition of ideas, and anchoring our conversations in our common purpose.
- 4. We Commit to practicing emotional intelligence as leaders which includes being aware of our own emotions and reactions and managing them, as well as being aware of our impact on others and managing this impact for the collective good when we are in our role as Board Managers.
- 5. We Commit to being aware of our own privileges and advantages in the sociopolitical and economic structure of the United States, Texas, and Travis County to use these for the benefit of interrupting inequities across historically disadvantaged identities.
- 6. We Commit to preventing the commission of microaggressions through the awareness of the history and oppression of diverse identities and communities. To this end, we Commit to strive to learn the historical context informing the lived realities of all historically oppressed identities and communities, and to use this to prevent use of language and commission of actions that can be harmful given these histories.
- 7. If we inadvertently commit a microaggression, we strive to immediately become aware on our own of the harm we have caused. If another Board Manager generously helps us become aware of a microaggression we have committed we welcome the support in our learning and growing process as a leader and immediately express appreciation for having made us aware, own the mistake we have made, acknowledge the impact of the harm we have caused, and engage repair through apology and the articulation of what we will do to avoid the repetition of such harm in the future.
- 8. If we observe one of our fellow Board Managers commit a microaggression, we Commit to calling them in by letting them know in a respectful and kind manner of the mistake that has been made.
- 9. We understand that many of us, as survivors of historically oppressed identities and communities, carry internalized narratives of oppression, and we can inadvertently express these oppressions against others in ways that cause harm and we Commit to the same process identified in 7 and 8 to engage repair and return to generative collaborative processes.
- 10. We understand that even without the history of oppression potentiating the weight of harm, expressions of prejudice and rudeness can also cause harm to our shared aims, and we Commit to the same process identified in 7 and 8 to engage repair and return to generative collaborative processes.

- 11. We Commit to using our Racial and Social Justice Framework (next page) for decision-making as we work together for the collective good of our communities as we eradicate health inequities and create a model healthy community.
- 12. We understand that we are entrusted with a vital responsibility for our communities and are accountable stewards for the time and resources available to our Board of Managers. We understand that these commitments are entered into to ensure responsible stewardship of this time and resources through generative collaborative processes to reach our vision and mission and we agree that if we do not follow any one of these commitments we welcome our Board Manager colleagues to bring this to our attention through the agreed upon process reflected here and when this occurs, we commit to immediately acknowledging the mistake and engaging in a repair and correction process as indicated in these commitments so that our work to dismantle systemic racism and resulting barriers and achieve health equity can move forward.

Manager as of 6/30/2021 and henceforth forward as indicated by signature below.

2. Discuss and take appropriate action to approve a consultant contract for the next phase of Central Health's ongoing Equity-Based Systems Planning work, which includes developing operational implementation and financial sustainability plans in support of the Board adopted Healthcare Equity Plan (aka Equity-focused Service Delivery Strategic Plan).

Clerk's Notes: Discussion on this item began at 7:26 p.m. Ms. Monica Crowley, VP Chief Strategy and Planning Officer and Senior Counsel, and Ms. Balena Bunch, Director of Procurement, presented on this item. They explained that in FY21, the Episcopal Health Foundation awarded Central Health a grant of \$600,000 to support equity-focused system of care planning, including the engagement of consultants to assist with: a Voice of the Community Engagement; a community needs assessment focusing on the needs of the safety-net population in Travis County; a capabilities and gap assessment; and the development of a Service Delivery Strategic Plan (aka Healthcare Equity Plan). Then in February of 2022, the Central Health Board adopted an Equity-focused Service Delivery Strategic Plan (aka Healthcare Equity Plan) based upon the work described above. Central Health then took action on June 15, 2022, to accept an additional \$600,000 grant from Episcopal Health Foundation to support Central Health in implementing and operating a financially sustainable, comprehensive, high functioning, and affordable safety-net system of care for Travis County.

A Request for Proposals (RFP) was issued in April of 2022 for assistance in developing an operational implementation and financial sustainability plan related to the goals and imperatives of the Equity-Focused Service Delivery Strategic Plan. The RFP was advertised on BidSync, on Central Health's website, and in community newspapers and websites. Through BidSync, 38,117 vendors were notified, including 6788 Historically Underutilized Business vendors. The solicitation closed on May 5, 2022. . Guidehouse submitted the only responsive proposal, and it was scored based upon qualifications and overall value to Central Health.

Lastly, Ms. Crowley and Ms. Bunch explained that the Guidehouse team has extensive experience working with Central Health and healthcare systems serving low-income populations in Texas and across the United States. The contract terms presented included a= fixed fee amount not to exceed \$975,000 and a contract term of 1 year with 4 possible renewal options. Staff asked that the Board delegate authority to the President and CEO to negotiate and execute a contract for up to \$975,000 on the terms identified in the staff presentation or terms at least as favorable to Central Health as those discussed.

Manager Museitif moved that the Committee recommend that the Board delegate authority to the President and CEO to negotiate and execute a contract for up to \$975,000 on the terms identified in the staff presentation or terms at least as favorable to Central Health as those discussed.

Manager Motwani seconded the motion.

# 3. Receive and discuss an update on Communications and Community Engagement activities and initiatives.

Clerk's Notes: Discussion on this item began at 8:03 p.m. Mr. Ted Burton, VP of Communications, and Mr. Ivan Davila, Director of Communications and Community Engagement, presented a communications update. The presentation included a look at community engagements, including HealthCare Equity Plan Community Conversations, Fiscal Year 2023 Community Conversations, and the Community Health Champions 2022 class. Next, the presentation reviewed MAP marketing and outreach. Lastly, they discussed social media metrics and a media relations summary.

#### 4. Receive an update on the Central Health Community Healthcare Initiatives Fund (CHIF).

**Clerk's Notes:** Discussion on this item began at 8:26 p.m. Mr. Mike Geeslin, President & CEO, and Ms. Balena Bunch, Director of Procurement, presented on this item. They explained that the Central Health Board developed the CHIF to contract for needed services provided by community groups, nonprofits, and

private businesses working to address health inequities among Travis County residents with low incomes. A Request for Information (RFI) was released as part of this effort. The information gathered from the RFI was combined with the Healthcare Equity Plan and Safety Net Community Health Needs Assessment findings to develop an RFP. Lastly, they explained that the RFP was posted April 27, 2022, and the solicitation is still open.

#### 5. Confirm the next Strategic Planning Committee meeting date, time, and location.

Manager Jones moved that the Committee adjourn.

Manager Museitif seconded the motion.

# EQUITY-FOCUSED SERVICE DELIVERY STRATEGIC PLAN

Phase I Work Completed To-Date and Summary of Key Findings

# Components of a high-functioning system of care

# Central Health's service delivery strategic plan is centered around the needs of the safety-net health care system in Travis County

### COMMUNITY HEALTH NEEDS ASSESSMENT

Understand the current state of the safety-net health care system in Travis County, gaps and future needs.

### CAPABILITIES AND GAP ASSESSMENT

Understand Central Health's capabilities and gaps in five areas: access and capacity, data and analytics infrastructure, system of care, care coordination and member engagement.

### **VOICE OF THE COMMUNITY**

Understand the perspective of patients, providers, and community members to ensure hard-to-reach populations were included in the assessment.

SERVICE DELIVERY STRATEGIC
PLAN (Health Care Equity Plan)

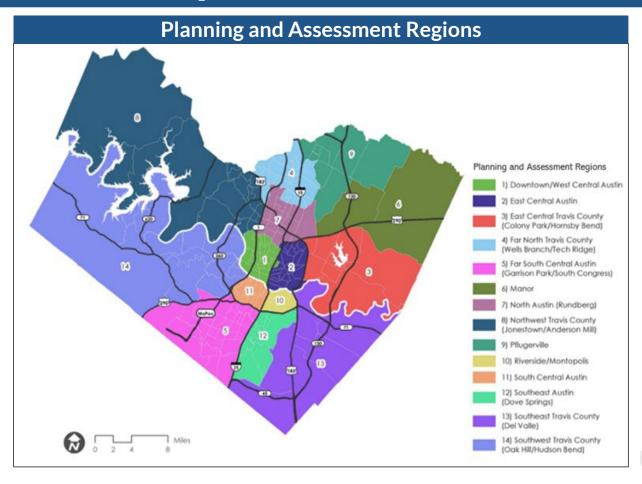

Develop a plan to build a comprehensive, high-functioning health care system to improve the health of Central Health's patients.

# The Community Health Needs Assessment (CHNA) evaluated 14 planning and assessment regions to understand the health care needs for Travis County's safety-net community

### **Summary**

- Planning and assessment regions were developed based on census tract analysis and other characteristics, including geographic borders, level of urbanization, transportation resources, and population density.
- Core to this analysis was understanding the health care needs of Travis County residents with low-income (under 200% FPL) and uninsured.

# Analyses uncovered significant unmet needs for the safety-net community, which require major strategic and operational changes

# Key Findings

- The **social diversity of Central Health's patients** requires tailored, data-driven and culturally affirming patient engagement strategies.
- Reliance on provider entities will not meet access and continuity of care needs.
- Limited primary care access is exacerbated by insufficient number of physician FTEs.
- Specialty care gaps are significant, with certain specialties represented by considerably low service availability.
- Staffing and data sharing gaps caused by reliance on partner entities disrupts continuity of patient care.
- Direct services are required to execute a systems-based strategy.

# The range of unmet clinical needs, especially for specialty care, demands a strategic approach to prioritize needs and utilize resources

# Included in these clinical needs is a significant need for investment in physician recruitment

To sustain the current capacity and access of MAP and MAP Basic patients to providers, Central Health requires additional yearly funding in physician salaries alone.

# To close these gaps, Central Health developed system-based strategic imperatives

**Goal:** To develop an equitable system of care that is comprehensive and accountable, while optimizing the collective use of capabilities and resources to serve residents with low-incomes

Access and Capacity

Broad geographic coverage with appropriate capacity and accessible points of entry

Care Coordination

Ability to coordinate care and share patient information/ data effectively across points of care

Member Engagement

Ongoing member engagement focused on hard-to-reach populations

System of Care

Network adequacy and clinical services. Optimized partner alignment

# **Critical Elements that Extend Across All Strategic Imperatives**

- 2. Administrative Staff
- 3. IT and systems capabilities
- 4. Data Management Capabilities
- 5. Contracts and Agreements
- 6. Fiscal Capacity
- 7. Infrastructure

# The ability to prioritize initiatives is critical to target and apply resources to activities most likely to have the greatest impact

Agreed upon characterizations of assessment variables enable the objective evaluation of prospective initiatives

Criteria	Definition	Criteria	Definition
Impact on Capacity	Open and available access to health care services.  Metrics: Physician Count, Facility Count and location etc.	Current Capabilities	Business, Clinical, IT, Data and Personnel capabilities to manage initiatives.
Impact on Access to Care	Ability to access clinically necessary services within clinically appropriate wait times. <i>Metrics:</i> PCP Wait Times, etc.	Required Investments	Capital Expenditure to start the initiative and the continued expenditure associated with sustaining the initiative over time.
Impact on Quality of Care	Access to services that are comparable to region and specialty specific quality metrics. <i>Metrics:</i> CMS Quality Ratings	Complexity of Implementation	Interdependence of capabilities required to start an initiative.
Enhancement of Patient Experience & Culturally Competent Care	Ability to meet formative patient expectations before, during and after the delivery of care.  Metrics: HCAHPS Score	Contractual Limitations	Current contracts with partners
Impact on Transitions Of Care	Coordination of care to streamline transitions between sites, physicians and systems	Dependence on Partners	Services or care that is delivered in conjunctions with partners.

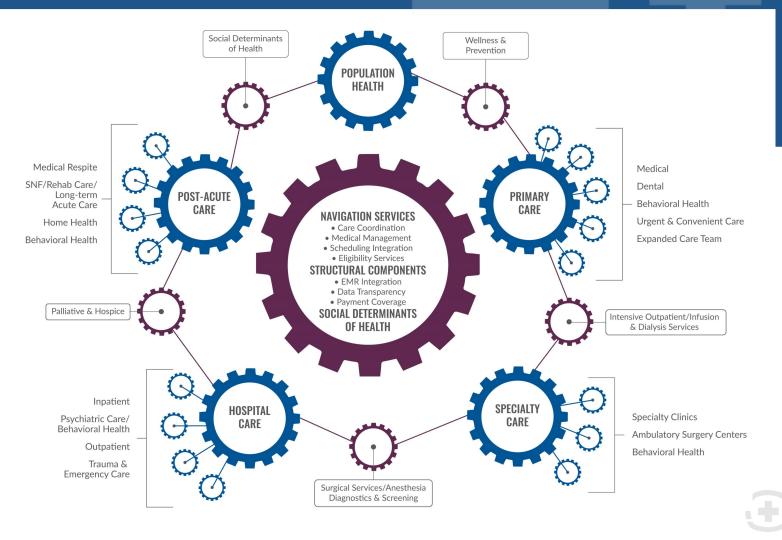

# OPERATIONAL AND FINANCIAL SUSTATINABILITY PLANNING (OFSP)

Overview of Phase II Engagement

# An efficient safety-net system requires synchronized activities between the various entities in the system

### **Summary**

Improved access to timely quality health care services for Travis County's low-income patients through the formation of a comprehensive, high functioning health care delivery system will require significant investment and infrastructure

# These are the steps Central Health needs to complete to realize its vision of a comprehensive and coordinated system

### Clinical

#### **Clinical Excellence**

- Provision of high-quality services through a reduction in duplication and outdated relationships, applications, and structures that no longer serve the health care needs of the safety-net, and increased clinical focus on equity including patient experience, quality and safety across all levels of the safety-net system.
- Strengthens Central Health's effectiveness in the community.

# Functional Integration

### **Functional Integration**

- High degree of coordination of quality services at the right time and place.
- Allows Central Health to improve value to potential partners and address safetynet community needs.
- Ability to effectively manage the health of the population we serve to generate better individual outcomes and reduce health disparities in the low-income population overall.

### **Future Vision**

### Mission and Strategy

- System-wide strategy that allows employees to coalesce behind a shared vision of Central Health's work.
- Allows Central Health to evaluate capital investments and partnership opportunities.

### Governance

# Governance and Accountability

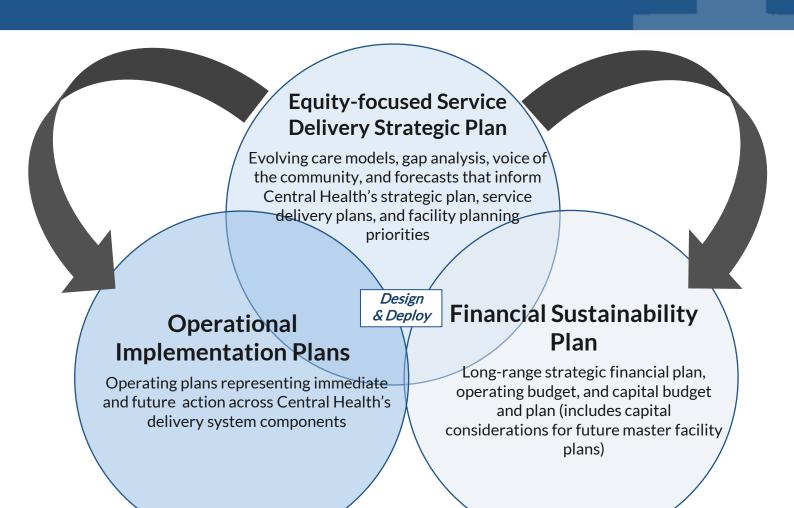

- Transparency in accountability and governance structures to drive ownership and empowerment from Board policy setting through implementation by staff.
- Utilize and continue to set guardrails and evaluation frameworks for current and potential partnerships.

# Finance & Operations

# Financial and Operational Improvements

- Align processes to achieve scale and greater access to care.
- Improve assessment of system value for potential partnership discussions.

# Developing operational and financial plans will operationalize the strategic plan

# Operational and Financial Sustainability Planning

# Phase II Engagement

# **Objectives of this Work:**

Implement the Service Delivery Strategic Plan to build and operate a financially sustainable, comprehensive, high-functioning, equitable and affordable safety-net system of care for Travis County.

## Phase I:

Define and Prioritize Initiatives

## Phase II:

Define Capabilities, Operational Alignment and Oversight Models

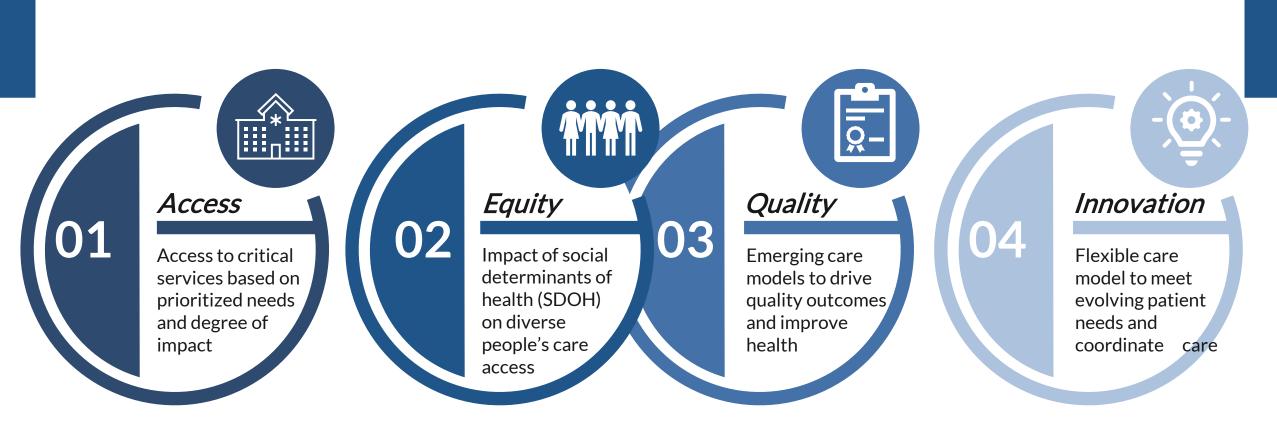

## Phase III:

Design Operational Roadmap and Financial Plans

# Operational and financial sustainability planning will consider the following organizational elements

# Phase I: Define and Prioritize Initiatives

**Objective:** Define and develop a prioritized list of initiatives that will be staged and sequenced to achieve the Health Care Equity Plan for residents of Travis County with low income.

## **Deliverables**

1. Community Needs Catalogue: Develop a summation of prioritized community needs including; type, scale, location, scope, and urgency of individual needs.

2. Initiative Summary Catalogue: An inventory of prioritized initiatives, including defined summaries of critical parameters assessed at the 1/3/5/7-year timeframes and detailed at the initiative level.

# Phase II: Define Capabilities, Operational Alignment and Oversight Models

**Objective:** Define the capabilities, operational alignment and oversight models required to execute initiatives while enabling appropriate tracking and accountability.

## **Deliverables**

1. Target Capability Architecture Maps: The target map represents the "ideal state" and capabilities required to achieve the prioritized initiatives.

2. Capability Maturity Maps: These will be at the initiative and system level and will be a heat-coded version of the architecture map that codes each capability in terms of maturity gap.

3. Oversight and Operational Alignment Models: Work collaboratively with Central Health to define and align the right oversight and operational alignment models at the right levels once target initiatives are selected.

**4. Reporting Models and Measures**: KPIs and reporting metrics at the initiative and system level, including frequency of reporting and performance standards developed to guide the initiatives, evaluate the progress, and be manageable.

# Phase III: Design Operational Roadmap and Financial Plans

**Objective:** Design operational roadmaps and develop forward-looking financial plans to prioritize, phase, finance, implement and sustain strategic initiatives based on impact and effort. Operational and financial performance will be tracked at the initiative and system level.

# **Deliverables**

1. Operational Roadmaps: Detailed at the Prioritized Initiative and System Level

### 2. Financial Plans, including the following:

- Financial Model: Detailed projections of capital, operating expenses, revenue, and cash flow
  - **Costs and Expenses Assessment:** Forecast internal direct, indirect costs, and total system costs associated with implementation.
- Financial Reporting: Establish standard formats and processes to streamline documentation and reporting.
- Value Analytics and Measures: Analysis of opportunity costs, risk identification and risk mitigation plans.
- Budgetary Models and Structures: Develop rolling forecast model using historical data to predict future results.
- Capital Plan: Develop plan with prioritized capital projects (facilities and equipment), funding sources and cash flow needs.
- Funding Models: Guide CH leadership to identify, evaluate and secure sources of state and federal funding.
